

# Hanford Tank Vapors

Vapors Weekly Update  
October 20, 2016

*A recap of events during the past week regarding Hanford's tank vapors*

## **From the desk of Mark Lindholm, WRPS President:**

The retooling of the Hanford vapors website was successfully launched on Thursday, Oct. 13. This effort is an extension of my team's commitment to provide timely, useful and user-friendly information. The redesign and information generated to improve the site has been an ongoing effort for nearly two months. This effort was taken on by a group of employees who assisted in organizing and generating the materials you will discover on the website.

In an effort to continually improve the Hanford vapors website, we initiated a focus group with a cross section of employees on Tuesday. By engaging our employees, we will find ways to improve this website as a primary tool for our employees and the public, and I hope you will find to be useful in understanding and drawing your own conclusions regarding Hanford's challenging tank waste cleanup mission.

### **News and Notes**

- Here's an [article on the "re-launch" of the Hanford vapors website](#).

### **Opportunities for Employee Engagement**

- The next Chemical Vapors Solutions Team (CVST) meeting is scheduled for Oct. 26, 2 to 4 p.m. at the 2704 building, room G206.
